SEEDS

FOR

GARDEN, LAWN
AND FARM

Willis S. Pino

41 WASHINGTON ST. COR EDDY
PROVIDENCE, R. I.

Park Lawn Grass Mixture

In our lawn mixture we use only the highest quality, extra clean seed, and free from weed seeds which abound in inferior grades. We use only the choicest low growing grasses, and a lawn produced from our seed will maintain a rich, dark, velvety appearance and a permanent sod.

*1-2 lb. 20c.; 1 lb. 35c.; 2 lbs. 60c.; 100 lbs. \$25.00
1 lb. will sow 600 square feet*

Shady Nook Grass Mixture

A special mixture of grasses adapted to growing under trees and in shaded places where it is quite difficult to produce a satisfactory growth, 1 quart, 30c.; 1-2 peck, \$1.00, 1 peck, \$1.75.

THE PREPARATION AND CARE OF A LAWN

The ground must first be thoroughly prepared by draining, if necessary, and spade or plow to the depth of 6 to 12 inches, according to the nature of the soil, applying a liberal quantity of well decomposed manure, bone meal or pulverized sheep manure, the latter we recommend as being lasting in effect, not liable to burn the grass and free from weeds. Clean the ground thoroughly and rake perfectly smooth and level, as much of the success depends upon this part of the preparation. The seed should be sown on a calm day, that it may be applied evenly and at the rate of sixty-four pounds per acre, or one pound is sufficient for 600 square feet. After the seed is sown the ground should be rolled with a light roller or evenly tamped with the back of a spade. The plat should be mowed every ten days from May until September, using a sharp scythe in preference to a mower until a close turf is formed. Frequent mowing and rolling is necessary to maintain a close even turf. April and September are the best months for sowing lawn seed.

FLOWER, VEGETABLE AND FIELD SEEDS

Bulbs, Fertilizers, Garden Implements, Etc.

WILLIS S. PINO

SEEDSMAN

41 Washington, corner Eddy Street, Providence, R. I.

In presenting my catalogue for the coming season, I wish to thank my many friends for their liberal patronage in the past, and to solicit their favors for the future.

SELECTION OF STOCK. My connection with the seed trade for more than twenty-five years should have eminently fitted me to secure stocks that will prove satisfactory to the most critical trade, as I have been able to demonstrate to those who have trusted me with their seed orders.

LOCATION OF STORE. My store will be found on the northwest corner of Washington and Eddy streets, one block from Dorrance or Westminster streets, and within a short distance of the Union Railroad Station.

SEEDS BY MAIL. For the benefit of out-of-town buyers, I pay postage on all seeds ordered in packets, ounces and one-fourth pounds. Add for prepayment of postage on large quantities at the rate of eight cents per pound. Peas and Beans fifteen cents per quart. Corn ten cents per quart.

EARLY ORDERS are always advisable, as the stock of many varieties is liable to be exhausted early and many times good stocks are not obtainable later.

PACKING AND DELIVERY. I make no charge for boxes and packing and deliver all goods free within the city limits. Seamless bags are charged fifteen cents and small cloth bags ten cents each.

While the greatest care is exercised to have all seeds pure and reliable, I do not give any warranty, expressed or implied. If the purchaser does not accept the seeds on these terms and conditions, they must be returned at once, and the money that has been paid for same will be refunded.

Willis S. Pino

VEGETABLE SEEDS

All Vegetable Seeds except Peas, Beans, Corn and those otherwise mentioned are put up in 5c. packages. We Send Free by Mail all vegetable seeds in packages, ounces and one-fourth pounds; larger quantities, add postage at 8c. per pound. Peas and Beans, 15c. per quart. Corn, 10c. per quart.

Artichoke

Sow seeds in hot bed early in spring in rows six inches apart, transplant into boxes or pots. Plant in open ground after danger of frost is passed two by three feet between plants. Rich, sandy loam is best adapted. Seed may be sown in open ground in May and protected until cold weather is past and will head the second year.

Large Globe or Paris, pkt. 10c.; oz. 35c.

Asparagus

One ounce to 40 feet of drill.

Sow the seed in spring in drills 15 inches apart; the following spring transplant to permanent beds. Plant for private use in rows 6 inches apart and allow 12 inches in the rows, covering the roots 6 inches. For market on a large scale set 4 by 2 feet.

	Oz.	¼ lb.	lb.
Conover's Colossal	10	20	50
Pametto	10	25	75
Barr's Mammoth	10	25	75

Beans, Dwarf or Bush

One quart to 100 feet of drill.

For succession bush beans should be planted at intervals of two weeks from May until August. Make drills two feet apart and two inches deep.

Qt. ½ pk.

Stringless Green Pod Extra early, stringless, round pod. Very prolific and excellent quality30 1 00

Extra Early Red Valentine An excellent round, green podded sort25 85

Black Valentine Pods long, round and straight, good quality25 85

Early Bountiful Practically a stringless Yellow. Six weeks25 85

Dwarf Horticultural An excellent shell bean.25 85

Goddard, or Boston Favorite Larger than the preceding variety25 85

Low's Champion Recommenda- ble as a string or shell bean.....30 1 00

Improved Golden Wax A favorite yellow podded variety; pods flat....30 1 00

Pencil Pod Black Wax Pods round, bright yellow and entirely stringless. The best dwarf black wax variety30 1 00

Round Pod Kidney Wax Pods long, entirely stringless. Very prolific. Excellent quality.30 1 00

Wardwell's Kidney Wax A popular variety with wide flat pods30 1 00

Fordhook Bush Lima. Very productive and of excellent quality40 1 50

Dreer's Bush Lima. A dwarf form of the Dreer's or Potato Lima35 1 25

Henderson's Bush Lima Earlier than the Burpee, but a smaller bean35 1 25

Burpee's Bush Lima The best variety of Bush Lima. Equal in size to Lima.....35 1 25

Beans, Pole or Running

One quart to 150 hills.

The planting of pole beans should be delayed a week or more after the planting of the early dwarf sorts. Make hills about 3 feet apart and 1 to 2 inches deep, and plant 5 or 6 seeds in each hill; thin to 3 plants in each hill when well established. Lima should not be planted until weather becomes warm and settled. Flat beans should be placed in the soil edgewise, eye down. Qt. ½ pk.

Mammoth Horticultural Pole. A very prolific shell bean30 1 00

Kentucky Wonder An excellent variety, entirely stringless, round pod30 1 00

Golden Cluster Wax A yellow podded variety of fine quality40 1 50

Scarlet Runner Highly ornamental; also used as a table bean35 1 25

Large White Lima (Extra Size) The standard pole Lima. Quality excellent.....35 1 25

Dreer's Improved Lima A short, thick bean, often called Potato Lima.....35 1 25

Sevia, or Small Lima An excellent bean, earlier and more hardy than large Limas.....30 1 00

English Broad Windsor The standard English bean35 1 25

Beet

One ounce to 50 feet of drill; 5 to 6 pounds per acre.

Sow early as ground can be worked in the spring, and for succession follow every two weeks until July. For main crop sow last of May. Light sandy loam well enriched with stable manure is best adapted and should be plowed and harrowed until very fine. Make drills one foot apart, and when well up thin to four or five inches in the row.

Extra Early Egyptian A very early Oz. ¼ lb. lb. flat blood red sort. Popular for first planting and forcing 10 35 1 25

Oz. ¼ lb. lb.

- Crosby's Egyptian** An improved strain of Egyptian Beet. Rich dark red, crisp and tender. An excellent early sort10 35 1 25
- Eclipse** Globe shaped, extremely early and excellent quality10 35 1 25
- Detroit Dark Red** Very tender and sweet; skin dark blood red; flesh bright red; fine round shape. Excellent for main crop10 35 1 25
- Edmand's Blood Turnip** Highly recommendable for main crop; uniform in size, very dark flesh and excellent quality10 35 1 25
- Dewing's Blood Turnip** A standard main crop variety of excellent shape and color.....10 35 1 25
- Long Smooth Blood** Deep, blood red, excellent quality15 35 1 25
- Swiss Chard (Spinach Beet)** Produces leaves only; which are used as greens. The quality is far superior if given a high cultivation..10 25 75

Sugar Beets and Mangel Wurzel

Sow in May or June; 5 to 8 pounds per acre.

¼ lb. lb.

- Norbitan's Giant** A long red variety adapted to deep soil15 45
- Mammoth Long Red** A standard sort.....15 45
- Yellow Globe** Adapted to shallow soil.....15 45
- Golden Tankard** A yellow variety, formed mostly above ground; easily pulled15 45
- Vilmorin's White Sugar** The best sugar beet for stock feeding15 45

Broccoli

One ounce will produce about 3000 plants.

Closely resembles Cauliflower, but more hardy and sure heading. Sow seed in May and plant out in June in rows two feet apart each way.

Pkt. oz.

- White Cape** Heads creamy white and of large size10 30

Brussels Sprouts

One ounce will produce about 3000 plants.

The seed should be sown about the middle of May in a seed bed, and the plants afterwards set in rows two feet or more apart and cultivated like Cabbage. This vegetable does not require extremely high cultivation. It is ready for use late in autumn, after the early frosts.

Oz. ¼ lb.

- Dwarf Improved Compact** in growth and of excellent quality25 65

Borecole or Kale

One ounce will produce about 3000 plants.

Sow in beds early in spring and transplant in June; treating in same manner as Cabbage.

Oz. ¼ lb. lb.

- Dwarf Green Curled Scotch.** Very dwarf and spreading, the best variety.....10 30 1 00
- Siberian (Dwarf German Greens or Sprouts).** Usually sown in September, to use the following spring10 25 75

Cauliflower

One ounce will produce about 1000 plants.

Cultivate as directed for cabbage. In dry weather water liberally. Cauliflower likes a cool moist situation.

Pkt. Oz.

- Early Dwarf Erfurt** Very earliest dwarf variety,20 2 00
- Early Snowball** A very popular early variety; for family use or market gardeners.....20 2 00
- Early Paris** Medium size and sure heading variety10 75

Cabbage

One ounce will produce about 1500 plants.

For early use sow the seed in hot beds in February or March, or may be sown about the middle of September, and the plants wintered over in cold frames. Transplant in spring, as soon as the ground can be worked in rows 2 feet apart, and the plants 18 inches apart in the rows. For late or winter use, the seed should be sown in May and the plants set out in July 2½ by 3 feet.

OUR CABBAGE SEEDS ARE ALL THE BEST
AMERICAN GROWN.

Oz. ¼ lb. lb.

- Early Winnigstadt** Pointed head, very hardy and sure to head20 50 1 50
- Early Jersey Wakefield** The best early sort medium size, pyramidal shape, with rounded peak,25 75 2 50
- Charleston, or Large Wakefield** Much larger than the above, but not as early....25 75 2 50
- Copenhagen Market** A round headed sort, early as WakefieldPkt., 10c.; oz., 50
- All Seasons** A superior variety for second early and late; early as Early Summer and larger,25 75 2 50
- Henderson's Early Summer** The leading early drumhead variety25 75 2 50
- Hollander, or Danish Ball Head** Excellent winter sorts, heads very solid.....25 75 2 50
- Warren Stone Mason** An improved Stone Mason, earlier, deeper and more solid.....25 75 2 50
- Large Late American Drumhead** An excellent late sort, sure heading and splendid quality,20 60 2 00
- Premium Flat Dutch** The standard main crop variety20 60 2 00
- American Drumhead Savoy Improved** The finest Savoy variety, finely curled, large and solid,25 60 2 00
- Early Ulm Savoy** The earliest and sweetest savoy25 60 2 00
- Mammoth Rock Red** Large size, very solid,25 75 2 50

Chervil

Oz. ¼ lb.

- Curled Chervil** An aromatic sweet herb. The young leaves are used in soups and salads. Sow thinly in May in drills half an inch deep, one foot apart10 30

Carrot

One ounce to 100 feet of drill; four pounds per acre.

For early crop sow as soon as the ground can be worked; they may be sown as late as the middle of June. The drills should be one inch deep and one foot apart, thinning out to three or four inches between the plants. Carrots do best in a deeply tilled, sandy loam.

Oz. $\frac{1}{4}$ lb. lb.
Early Scarlet Horn A favorite sort; for early summer use...15 50 1 50

Early French Forcing The earliest variety grown; small, tender. Fine quality15 50 1 50

Danvers Half Long Rich deep orange color; excellent quality; roots taper to a point. A very heavy cropper (select stock)15 50 1 50

Oz. $\frac{1}{4}$ lb. lb.
Guerande, or Ox Heart Stump-rooted; one of the most valuable varieties, either for family use or market; fine flavor and color; very productive,15 50 1 50

St. Valery An excellent variety for private gardens. Grows from ten to twelve inches long,15 40 1 25

Improved Long Orange Large variety; used for main crop15 40 1 25

Chantenay A stump rooted variety having a large shoulder; very productive15 50 1 50

White Belgian Large white root; extensively grown for stock feeding10 30 1 00

Celery

One ounce will produce about 1500 plants.

Seeds may be sown in the open ground in April. Sow about half an inch deep and firmly press the soil over the seed. After the seed is up, keep care-

fully clear of weeds until the time of planting, in June or July. After the ground has been well prepared, plant in rows from three to four feet apart, according to the variety, setting the plants about six inches apart and pressing the soil firmly about the roots. The soil best suited for celery is a rich, moist loam.

Oz. $\frac{1}{4}$ lb. lb.
White Plume Excellent for early use; naturally white, requires little blanching.....25 75 2 50

Golden Self-blanching. True stock. Similar to above except that the stalks are a beautiful golden yellow. Our stock of this celery is endorsed by the leading market gardeners of this section. Package, 10 cents1 25 4 00 15 00

Winter Queen Robust growth, medium height. An excellent keeper and desirable for winter storage. Package, 10 cents30 75

Pink Plume A pink variety of the self-blanching type25 75 2 50

Giant Pascal An excellent late sort, easily blanched and a good keeper.....20 60 2 00

Boston Market A dwarf branching variety,20 60 2 00

Celeriac, or Turnip Rooted Grown exclusively for the roots25 75 2 50

Soup Celery For flavoring05 10 30

Corn, Sweet

One quart to 200 hills; one peck per acre.

Plant in hills three feet apart each way, and five to six kernels in a hill. Hoe often and draw soil up to the stem. Make ground rich with well rotted manure. For succession planting should be made at intervals from May to July.

CHOICE CONNECTICUT GROWN

Price, all varieties, qt., 25c.; 2 qts., 45c.; 4 qts., 80c.; 1 peck, \$1.50. Except where noted.

Peep o' Day Very early, small ears, very sweet.

Early Cory Early, good sized ears.

White Cory Like the above; white cob and kernel.

Golden Bantam Extremely hardy, allowing earlier planting than other varieties. Superior rich flavor. Qt., 30c.; 2 qts., 55c.; $\frac{1}{2}$ pk., \$1.00.

Crosby's Early Matures after Cory; excellent quality.

Potter's Excelsior, or Squantum Very sweet and tender, one of the finest for main crop.

Stowell's Evergreen One of the most popular varieties for main crop.

Black Mexican Very sweet and superior quality.

Bearsfoot A very desirable late variety at 30c., 2 qts.; 55c., ½ pk.; \$1.00, pk.

Late Mammoth Large ears, rich and sweet.

Country Gentleman The sweetest and most tender of all varieties.

Field and Fodder Corn

	Pk.	bu.
Early Yellow Canada Very early; eight rowed	60	2 25
Longfellow Ears average 12 to 15 inches in length	60	2 25
Sanford Ears large and small cob, white kernel,	60	2 25
Red Cob Ensilage Sweet, tender and juicy producing abundance of foliage	50	1 75
Improved Leaming Ears large and handsome, deep grain, small cob	50	1 75
Evergreen Sweet Fodder For cutting green for stock	60	2 00
Pop Corn Rice and White Pearl, choice Eastern grown, lb., 10c.		

Corn Salad or Fetticus

Used as a salad. Is sown in early spring, in rows a foot apart, and is fit for use in six or eight weeks from the time of sowing.

	Oz.	¼ lb.	lb.
Large Leaved	10	25	75

Cress or Pepper Grass

A well-known pungent salad; cover very slightly, sow at frequent intervals to keep up a succession; to be used before the flowers appear.

Extra Curled Very fine; may be cut two or three times

Upland Hardy perennial; adapted to any soil, wet or dry. A very rapid grower and ready for use very early in spring; pkt., 10c.; oz., 75c.

Water Cress Hardy perennial aquatic plant, Pkt., 10 40 1 25 4 00

Cucumber

One ounce to 50 hills; 2 lbs. per acre.

Cucumbers succeed best in warm, rich, sandy loam. Plant when all danger of frost is past, in hills about four feet apart each way; the hills should be previously prepared by mixing thoroughly with the soil of each a shovelful of well rotted manure; sow for pickling from the middle of June to the middle of July. Price, except where noted, oz., 10c.; ¼ lb., 35c.; lb., \$1.25.

Improved White Spine One of the best varieties for table use.

White Spine Forcing A special strain for cultivation under glass. Fruit grows very even in size; color, dark green.

Early Russian The earliest in cultivation; small and productive.

Early Cluster Length about 5 inches; tender and productive.

Boston Pickling True stock; the best variety for pickling.

Oz. ¼ lb. lb.

Green Prolific Excellent for summer use and for pickling.

Improved Long Green Ten to twelve inches in length; dark green.

West India Gherkin Small, oval shaped, for pickling

Everbearing Small sized, very early, and enormously productive.

Japanese Climber Can be grown either as an ordinary ridge cucumber or as a climber,

English Frame Telegraph For growing in hot beds. Pkt., 25c.

Dandelion

One ounce will sow 100 feet of drill; two pounds to one acre.

Sow in May or June in drills a foot apart, press the earth firmly over the seed, cultivate during summer, cover lightly with straw during winter, and the following spring the leaves will be fit to cut. The roots when dried and roasted are often employed as a substitute for coffee.

Improved Broad Leaved Pkt., 10c.; oz., 35c.; ¼ lb., \$1.00; lb., \$3.50.

Egg Plant

One ounce will produce about 1000 plants.

The seed should be sown in hot beds the first week in April. Plant out about June first, about two and a half feet apart. The Egg Plant will thrive well in any good garden soil.

Black Beauty Fully ten days earlier than Imp. New York, remarkably healthy growth and large fruit; pkt., 10c.; oz., 40c.

Improved New York Spineless Quite free from spines, fruit of large size, and perfect form; two weeks earlier than the old variety. Pkt., 10c.; oz., 40c.

Endive

One ounce will sow 150 feet of drill.

Sow in drills one foot apart, thin out to ten inches apart, blanch when the leaves are about nine inches long, by drawing them together and tying them carefully.

Green Curled Very hardy, leaves dark green, tender

French Moss Curled Very finely curled variety,

Batavian Broad-leaved. Leaves long and broad, chiefly used in soups

Kohl Rabi

The seeds of this plant may be sown at the same period as the Swedish or Rutabaga Turnip, and may be cultivated in the same way, remembering to leave the chief part of the stems uncovered by the earth. The bulbs may be kept sound and nutritious until late in the spring, even later than those of Turnips.

Early White Vienna The best variety,

Early Purple Vienna Later than the white,

Leek

One ounce will sow 100 feet of drill.

The Leek is very hardy and easily cultivated. Sow in April in drills one foot apart, and transplant in July into rows fifteen inches apart, and six inches from each other in the rows. The soil should be rich but not fresh manured.

Large American Flag The kind mostly grown for Market

Musselburgh Grows to very large size,

Lettuce

One ounce will sow 100 square feet or 120 feet of drill.

The earliest sowing may be made in February or March under glass, with slight heat. For later supplies, sow in the open ground, as the season will permit, thin out well and set in rows two feet apart, and a foot between the plants. Lettuce requires good ground and abundant moisture. Oz. $\frac{1}{4}$ lb. lb.

Crumpled Leaf Hot-house The best for forcing Pkt., 10c.35 1 25 4 00

Boston Forcing A small compact, very early heading sort20 60

May King Extremely early. For out of door or glass culture20 60

Boston Market Fine for cold frames or open ground15 40 1 25

Black-Seeded Tennisball Heads close and hard,15 40 1 25

Improved Salamander Heads compact and resist the summer heat well.....20 50 1 50

Hanson Large heads, solid; an excellent summer variety15 40 1 25

Big Boston Fine for cold frames or out doors; Heads large and solid20 50 1 50

Curled Silesia A favorite for the home garden,15 40 1 25

Early Curled Simpson Very popular for out-door culture15 40 1 25

Boston Curled Fine frilled leaves; crisp and tender15 40 1 25

Black-Seeded Simpson Excellent for forcing or out-door culture20 50 1 50

All the Year Round A popular summer sort,20 50 1 50

White Summer Cabbage Excellent for out-door,20 50 1 50

Crisp as Ice Medium size, solid head; one of the best bronze leaved sorts20 50 1 50

Tomhannock Upright growth; crisp and tender; brown edged15 40 1 25

Self-folding Cos Should be sown early and tied up to blanch20 50 1 50

Mustard

One ounce to 80 feet of drill.

Sow in shallow drills a foot apart. The young leaves are used for salads and the seeds for flavoring.

White Best for Salads.....05 10 20

Brown More pungent in flavor than the white,05 10 20

Melon—Musk

One ounce to 80 hills; 2 to 3 pounds per acre.

Prepare hills four to five feet apart each way; mix well with the soil in each hill a couple of shovelfuls of thoroughly rotted manure. When the weather has become warm plant from 12 to 15 seeds in each hill; afterwards thin out, leaving four good plants.

	Oz. $\frac{1}{4}$ lb.	lb.
Emerald Gem Early, small; flesh deep orange; very sweet10	35	1 25
Extra Early Hackensack Earlier than Hackensack and not quite as large,10	35	1 25
Tip Top Medium size, round; yellow flesh10	35	1 25

Golden Netted Gem One of the earliest, best and most prolific small melons.....10 30 1 00

Jenny Lind Flesh light green; small but very early10 30 1 00

Nutmeg Fruit oval, very early; exceedingly sweet10 30 1 00

Miller's Cream Skin very thin, dark green; flesh salmon and excellent flavor15 35 1 25

White Japan Very early and prolific, medium size; flesh green; thick and very sweet,10 30 1 00

Melon—Water

One ounce to 30 hills; 4 to 5 pounds per acre.

Plant in hills as directed for Musk Melons, and treat in all respects the same except that the hills should be about 8 feet apart. Price, all varieties, oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 60c.

Cole's Early Medium size; flesh bright red; excellent quality.

Phinney's Early Very early and sweet; flesh deep red.

Kleckley's Sweet Vines vigorous and productive; flesh bright red and exceedingly sweet.

Hungarian Honey Very early, nearly round, dark green skin, brilliant red flesh.

Mountain Sweet One of the best; color dark green.

Black Spanish Large; very dark green; flesh deep red; sugary.

Citron For preserves only.

White Gem Perfectly round, almost white skin, bright red flesh.

Mushrooms

"American Pure Culture Spawn," produced under the new *selective* method, recently discovered, the only method which makes possible the segregation of varieties, is received *absolutely fresh* at frequent intervals from the manufacturer. This spawn will produce mushrooms of a specific variety selected with special reference to their size, color and prolificness, to the exclusion of other and inferior fungi. *It absolutely eliminates all danger of raising poisonous mushrooms.* We keep on hand the cream white variety. Bricks weigh from 1¼ to 1 1-3 lbs., and will spawn 10 square feet of beds; each, 20c.

Illustrated book, *Mushroom Culture and Pure Culture Spawn*, containing the latest methods of raising, preserving and cooking mushrooms, 25c. per copy, postpaid.

Nasturtium

The seeds while young and succulent are pickled and used as capers. Sow the seeds in drills one inch deep, the tall grown by the side of a fence, or supported by a trellis.

	Oz.	¼ lb.	lb.
Tall Mixed	10	30	\$1 00
Dwarf Mixed	10	30	1 00

Okra or Gumbo

One ounce to 75 hills.

Sow early in May, in drills two inches deep, setting the plants from two to three feet apart.

Dwarf Green The very best variety for general cultivation

Onions

One ounce will sow 100 feet of drill; 6 lbs. per acre.

A rather strong, deep, rich, loamy soil is considered most suitable for onion culture. Prepare ground the previous autumn by plowing or spading deeply and applying a heavy coat of well-rotted barn-yard manure. Sow seed early in spring in shallow drills one foot apart, covering with fine soil, and press down by the use of a light roller or the back of a spade. Thin plants to 4 inches and keep free from weeds.

Our Onion Seed is all Eastern grown.

Yellow Globe Danvers True Buxton type. A standard sort, deep globe shape, large size, mild flavor and a good keeper.....	20	50	1 50
Large Red Weathersfield One of the most productive and longest keeping sort. Large size, flat purplish red color	20	50	1 75
Southport Yellow Globe Larger than Globe Danvers, excellent quality.....	20	50	1 50
Southport Red Globe Very early, globe shape, bright red color, excellent keeper.....	20	50	1 75
Southport White Globe Large, globe shape, mild flavor and firm; a good keeper. Always command a high price in market	25	75	2 75
White Portugal Excellent for family use, and recommendable for pickling	25	75	2 75
Prizetaker Globe shape, very large size, extremely mild flavored; is most satisfactory when sown early in hot bed and transplanted.....	20	60	2 00
The Queen Rapid growth, mild flavored and a good keeper	20	60	2 00

Onion Sets

(Prices variable.)

	Qt.	½ pk.
White Sets	25	75
Yellow Sets	20	65
Red Sets	20	65
Potato Onions	20	60
White Multipliers	25	75
Shallots	30	75

Parsley

One ounce will sow 150 feet of drill.

Sow thickly in drills a foot apart and half an inch deep early in the spring, having soaked the seed in tepid water a few hours.

	Oz.	¼ lb.	lb.
Champion Moss Curled Fine and unsurpassed for garnishing	15	35	1 25

Oz. ¼ lb. lb.

Fern Leaved Very ornamental; valuable for table decorations.

15 35 1 25

Plain Leaved Excellent flavor.

10 30 1 00

Hamburg Rooted Fleshly vegetable root for soups, etc.,

15 35 1 25

Parsnip

One ounce will sow 200 feet of drill 5 lbs. per acre.

Sow as early as possible, half an inch deep, and press the soil firmly over the seed; succeeds best in a rich, sandy loam.

Hollow-Crown, or Long-Smooth

The standard sort for general use

10 25 60

Peas

One quart will plant about 100 feet of drill. One and one-half bushels per acre.

Plant the extra early smooth varieties soon as the ground can be worked; and the wrinkled sorts soon as the ground becomes warm. Make rows for dwarf varieties two and one-half feet apart and for tall sorts three feet apart.

Laxtonian New dwarf, early, large podded Pt. Qt. variety, earlier than Gradus.....

40 75

Gradus A variety rivaling the first earlies; producing pods and peas equal to the large marrow sorts. Unexcelled in quality and flavor.....

45 \$1 75

Thomas Laxton Resembles the Gradus in size of pod but of darker color

45 1 75

New York Market Very early and productive. A general favorite among the market gardeners; robust in growth; height, 2½ feet.....

30 1 00

Alaska or Earliest of All The earliest pea in cultivation; matures nearly its entire crop at one picking; height, 2½ feet.....

30 1 00

American Wonder One of the earliest wrinkled peas, dwarf and robust in growth, pods long and well filled; height, 10 to 12 inches.....

35 1 25

Sutton's Excelsior The largest podded dwarf sort; excellent quality and heavy cropper.....

40 1 50

Qt. 1/4 pk.

- Nott's Excelsior** An excellent dwarf wrinkled pea robust and vigorous in growth. Peas and pods large35 1 25
- New Dwarf Champion** A sort with all the merits of the Champion of England, height, 26 inches, matures little after Little Gem.....35 1 25
- McLean's Advancer** A standard variety of excellent quality35 1 25
- Telephone** A very popular variety. height, 3 1/2 feet. Pods 5 to 7 inches long, containing 8 to 12 peas of unequalled flavor35 1 25
- Stratagem Improved** Pods large size.....35 1 25
- Everbearing** A branching and everbearing sort. Height, 3 feet; pods long, well filled....40 1 50
- Champion of England** A standard tall growing sort; productive and good quality.....35 1 25
- Black-Eyed Marrowfat** Hardy and productive; an old standard, height, 4 feet.....30 1 00
- Dwarf Sugar** Edible, pods can be used like a string bean40 1 50

Pepper

One ounce will produce about 2000 plants.

Sow the seed in March or April in a hot bed, and transplant to the open ground as soon as the weather is quite warm, in rows about 20 inches apart and 15 inches apart in the rows. A warm sandy loam is best. Prices except where noted, oz., 25c.; 1/4 lb., 75c.; lb., \$2.50.

Giant Crimson The earliest very large sweet pepper. Plant vigorous, upright, larger than Chinese Giant and more productive. Pkt., 10c.; oz., 50c.; 1/4 lb., \$1.50.

Sweet Mountain Large size, regular, handsome shape, mild flavor, very early.

Large Bell A standard sort, large size, mild flavor

Squash Medium size, productive.

Ruby King Very mild, fruits 4 to 6 inches long; excellent for stuffing; a very popular sort.

Long Red Cayenne. Bright red, slender pods, very pungent.

Red Cherry. For pickling; cherry shaped.

Chilli Very small, red, very pungent.

Potatoes

All the leading varieties, choice Maine grown stock, at lowest market prices.

Pumpkin

Pumpkins are now principally cultivated for agricultural purposes. They are usually planted in fields of corn or potatoes, but may be profitably raised in fields by themselves. Sow first of May, in hills eight feet apart.

	Oz.	1/4 lb.	lb.
Yellow Sugar Very sweet; an excellent table sort	10	20	60
Connecticut Field For feeding stock.....	05	15	40
Large Cheese Flat, one of the best varieties for family use.....	10	20	60

Radish

One ounce will sow 100 feet of drill.

Radishes require a light, rich, sandy soil. For an early supply sow in a hot bed in February, care being taken to give plenty of ventilation. For a successive supply, sow from the middle of March until September, at intervals of two or three weeks.

We carry but one grade; the best.

Early Scarlet Globe For forcing in greenhouses, hot beds and cold frames or open-ground sowing, this is one of the very best. Globe shaped, fine scarlet color, crisp, mild and tender. Small tops. The market gardeners' favorite....10 25 75
Price of the following varieties....10 20 60

Early Scarlet Turnip A standard variety for market or family use.

French Breakfast Olive shaped, bright scarlet, white tipped. A favorite sort.

Long Scarlet Short Top Long, smooth crisp and tender.

Scarlet Turnip White Tipped Very early, excellent quality.

Wood's Early Frame Long, red, crisp, good for forcing or out door.

White Giant Stuttgart Top shape, white skin and flesh, summer variety, but does not become pithy until late and can be stored for winter.

Olive Shaped Scarlet Firm, crisp, good flavor.

White Strasburg A favorite summer variety.

White Turnip A favorite summer variety.

Long Black Spanish An excellent winter sort.

Round Black Spanish A winter variety.

Rose China Winter Scarlet, white tipped, excellent quality.

Spinach

One ounce to 100 feet of drill.

For summer use, sow early in March, in drills fifteen inches apart, and for succession at intervals of a fortnight. For winter use sow late in August. The soil should be heavily manured and deeply trenched.

Giant Thick Leaved The best for spring or fall sowing05 15 35

Victoria Leaves large, thick, dark green. A favorite for spring or fall sowing....05 15 35

Long Standing Excellent for spring sowing,05 15 35

Prickly The hardiest sort generally used for fall sowing05 15 35

Bloodsdales Savoy leaved, for sowing in the fall for early spring use05 15 35

New Zealand Entirely distinct variety, produces a large quantity of leaves; for summer use,10 30 90

Salsify or Oyster Plant

One ounce to 50 feet of drill.

The Salsify has a long white, tapering root, resembling a small parsnip; when properly cooked it has the flavor of an oyster, and is a good substitute. Sow early in drills 15 inches apart; cover the seeds an inch and a half deep.

	Oz.	¼ lb.	lb.
Long White The standard sort....	10	30	1 00
Sandwich Island Grows to a large size; very mild flavor	15	50	1 50

Squash

Bush sorts, one oz. to 50 hills; 6 lbs. per acre.

Running sorts, one oz. to 16 hills; 4 lbs. per acre.

The Squash is a very tender vegetable, sensitive of cold and cannot in our climate be planted before the middle of May. Plant in rich soil, in hills prepared similar to those for Cucumbers. All sorts thinned to not over three plants to a hill.

Giant Summer Crookneck Larger than the ordinary summer crookneck10 25 75

White Bush Scallop Early; a good market sort,10 25 80

Yellow Bush Scallop Yellow flat, scalloped edge10 25 75

American Turban A favorite late variety,10 25 80

Boston Marrow A good keeping winter sort,10 25 80

Early Prolific Marrow The earliest and most productive; fall and early winter variety,10 25 80

Golden Bronze Dark grayish green skin; bright yellow flesh; fine grained.....10 25 80

Hubbard The standard winter squash,10 30 1 00

Chicago Warted Hubbard A popular selection of the well-known Hubbard, having dark green warted shell. Large size and excellent quality,10 30 1 00

Golden Hubbard Similar to the standard sort except in color10 30 1 00

Delicious Medium size, thick, bright yellow flesh; excellent flavor10 30 1 00

Essex Hybrid A fine fall variety....10 25 80

Mammoth Chilli Enormous size, orange yellow color15 35 1 25

Winter Crookneck A favorite winter sort,10 25 80

Tomato

One ounce will produce about 2000 plants.

The seed should be sown in a hot bed about the first week in March, in drills five inches apart and half an inch deep. When the plants are about two inches high set out in boxes, three inches deep, four inches apart, in another hot bed or pot singly. If transplanted a second time will be stocky and branching. When the weather has become mild, transplant into warm, light, rich soil four feet apart.

Price except where noted, oz., 25c.; ¼ lb., 75c.; lb., \$2.50.

Comet Forcing or out-door planting, pkt., 15c.; ½ oz., 50c.

June Pink Extra early purple fruited, very desirable.

Earliana The earliest large red tomato. A favorite among market gardeners.

Chalk's Early Jewel Medium early, bright scarlet, ripening up to the stem without cracks or green core.

Acme Very early, smooth, color purplish pink.

Beauty Large, smooth, early, dark purplish pink.

Perfection Early, regular and productive, reddish scarlet.

Livingston's Globe Large purple fruit, excellent quality; pkt., 10c.; oz., 40c.

Dwarf Champion A distinct variety; robust, short jointed; fruit early, medium size, crimson color.

Stone A remarkable main crop variety. Smooth, solid and very little seed capacity, very productive and quality is unexcelled.

Dwarf Stone The largest fruited of the dwarf sort. Color, bright scarlet.

Ponderosa The largest variety in cultivation. Oz., 40c.; ¼ lb., \$1.25.

Golden Queen A large, smooth yellow variety.

Strawberry (Husk). A favorite preserving sort.

Tobacco

One ounce will produce plants for one acre.

Sow broadcast in hot beds or in open ground soon as ground can be worked. Keep free from weeds and water freely in dry weather. Set out about June 1st three feet apart on highly manured ground.

	Pkt.	oz.
Connecticut Seed Leaf	10	30
Havana	10	40

Turnip

Ounce will sow 150 feet of drill; one pound per acre in drills; 2 to 3 pounds broadcast.

For summer use, sow early in the spring in drills and thin out to eight inches. For fall and winter, sow from July to September. Rutabagas should be sown in June or early in July, in drills eighteen inches apart; thin out when large enough, six to nine inches apart in drill, according to size.

	Oz.	¼ lb.	lb.
Extra Early Purple Top Milan The earliest Turnip. White, flat, medium size	15	40	1 25
Red Top Strap Leaf A popular quick growing sort	10	15	40
White Egg Rapid growth, pure white, egg shaped, fine grained	10	20	60
Golden Ball Medium size and excellent quality,	10	20	60
Cow Horn Flesh white, fine grained, a good table sort	10	20	60
Budlong White Rock Much smoother than the old type, white flesh, mild and sweet	10	20	60
Twentieth Century Rock Fully three weeks earlier than the Budlong. Excellent quality, and a remarkable keeper	10	25	75
Sweet German Flesh white, sweet and mild flavored	10	20	60
Improved American Yellow flesh, excellent quality	10	20	60

Grass Seeds

Prices May Change as the Season Advances

- Rhode Island Bent** One of the best grasses for lawns in adapting itself to almost any soil, dry, moist or sandy. Valuable for permanent pastures. Per lb., 35c.
- Kentucky Blue** (*Poa Pratensis*). A superior grass for pastures and lawns. Succeeds well in all soils and stands dry weather well. Per lb., 25c.
- Orchard Grass** (*Dactylis Glomerata*). One of the earliest grasses and very hardy. Should be sown with Red Clover, as it blossoms about the same time. It is very productive and makes excellent hay. Grows well in shady woodlands, but do not use it for lawns. Per lb., 25c.
- Timothy** (*Phleum Pratense*). A variety well known and highly appreciated. Produces large hay crops if grown on moist clayey soil. Market price.
- Red Top** (*Agrostis Vulgaris*). A hardy perennial grass, succeeding best on moist land. Used extensively in all pasture mixtures, remaining green the greater part of the year. Recleaned, per lb., 25c.
- Sweet Vernal** (*Anthoxanthum Odoratum*). A perennial grass used in pasture mixtures. Per lb., 75c.
- Tall Meadow Oat Grass** (*Avena Etatior*). An early grass much relished by cattle, and produces an abundant supply of foliage. It is hardy and valuable for pasture. Per lb., 30c.
- Hard Fescue** (*Festuca Duriuscula*). One of the best dwarf grasses; excellent for dry soil. Hardy and withstands long periods of drought. Per lb., 30c.
- Meadow Fescue** (*Festuca Pratensis*). A valuable grass for permanent pastures. Very productive and nutritious. Per lb., 25c.

Crested Dog's Tail (*Cynosurus Cristatus*). An excellent grass for hilly situations and shady parts of lawns, thriving best on rich, moist land. Per lb., 40c.

Rough Stalked Meadow Grass (*Poa Trivialis*). Produces an abundant crop of highly nutritious herbage. Grows well on rich, moist lands and sheltered situations. Per lb., 40c.

Sheep's Fescue (*Festuca Orina*). An excellent grass for sheep pasture. Perfectly hardy, dwarf, compact growth. Per lb., 30c.

Fine Leaved Fescue (*Festuca Ovina Tennifolia*). Adapted to dry soils. Per lb., 45c.

Red Fescue (*Festuca Rubra*). Suitable for sandy soils and at the seashore. Per lb., 35c.

Meadow Foxtail (*Alopecurus Pratensis*). One of the earliest and best pasture grasses; grows rapidly when cut or eaten down by stock. Should only be sown with other grasses. Per lb., 45c.

Creeping Bent (*Agrostis Stolonifera*). One of the best lawn grasses; succeeds well in deep soils. Per lb., 40c.

Wood Meadow Grass (*Poa Memorialis*). Chiefly used for shaded positions in lawns and woodland parks, where other grasses will not grow. Per lb., 50c.

English Rye Grass (*Lolium Perenne*). A very nutritious, rapid growing grass. Valuable for meadows and pastures. Per lb., 20c.

Clovers

Alfalfa (*Lucerne*). Requires a deep, rich soil, and in such will produce several crops every season; one of the best green fodder plants; 10 to 15 lbs. to the acre. Per lb., 25c.

Alsike Clover (*Trifolium Hybridum*). Resembles in growth, duration, etc., the Red Clover; thrives well in cold, wet and stiff soils; 10 lbs. to the acre. Per lb., 30c.

Medium Red Clover (*Trifolium Pratense*). Is a perennial, but of very few years' duration; is considered the most nutritious of all species and most valuable in moist locations. Market prices.

White Clover (*Trifolium Repens*). Valuable for lawns and pastures. Per lb., 50c.

Crimson Clover (*Trifolium Incarnatum*). Sown at the last of summer or early autumn; it furnishes a very early green fodder; excellent for soiling; 20 lbs. to the acre. Per lb., 25c.

Millets

Southern Golden Medium early; height 3 to 5 feet; heads closely condensed; spikes very numerous; seeds round, golden yellow, in rough bristly sheaths. Per bushel (50 lbs.), \$2.25.

Hungarian Millet (*Panicum Germanicum*). One of the most valuable annual soiling plants. It will grow in any ordinary soil, withstands drought well, and in this latitude may be sown as late as the first day of July, and produces a large green crop; 1½ bushels to the acre. Per bushel (48 lbs.), \$1.75.

Japanese A new millet, very productive if sown early and cut; usually produces a good second crop. Has produced six tons dry hay per acre. Sow one bushel to the acre. Per lb., 10c.; per 100 lbs., \$6.00

FLOWER SEEDS

Our stock of flower seeds has been selected to supply the wants of a critical florist's trade and our customers may be sure of receiving nothing but seeds of the finest quality.

All flower seeds in packages, ounces, and one-fourth pound mailed free at prices; larger quantities, add eight cents per pound.

<i>Scarlet</i>	05
<i>White Margined</i>	05
<i>Single Mixed</i>	05
<i>Double Mixed</i>	10

STOCKS

Sweet Peas

Fragrant climbing annuals. Seeds should be sown early in spring to enable the vines to get a good strong growth before the warm weather. Make trenches six inches deep, in which the seed should be sown, covering them two inches. As soon as the plants show through, fill in the trench, which will secure a deep root and allow blooming through the heat of summer. Keep the flowers picked off as fast as they come into full bloom, for if the pods are allowed to form, the plants will stop blooming.

PRICE, ALL NAMED VARIETIES. Pkt. 5c.; Oz. 10c.; 1-4 Lb. 30c.; Lb. \$1.00; EXCEPT WHERE NOTED

Wild Flower Garden Mixture

These mixed flower seeds embrace more than a hundred varieties of such easy growing and pretty flowers as are suitable for forming a wildflower garden. They are very useful for woodland walks, roadsides, alongside of fences and on untidy bare spots and which if properly cared for and kept free from weeds, can be made to produce a continual display of bloom during the summer. Pkt. 10 cents.

We import large Quantities of **FALL BULBS** and handle strictly first quality.
Our Annual Bulb Catalogue will be issued September 1st. Send for it.

Summer Flowering Bulbs

CALADIUM—Esculentum This is one of the most beautiful and striking of the ornamental foliage plants, for growing in pots or for planting on the lawn, or masses in beds. It is of the easiest culture, and will grow in any good garden soil.

Dry Bulbs 10c. each, 75c. per doz.; medium, 15c. each, \$1.25 per doz.; large, 20c. each; \$2.00 per doz.

Caladium—Fancy Leaved Decorative foliage plants for pots. Baskets, tropical bedding, etc. 15c. each; \$1.50 doz.

Calla Spotted leaved. Desirable for outdoor planting. Requires a moist situation. 10c. each; \$1.00 doz.

Crinum Kirkii Enormous lily like flowers, fragrant, white with dark red stripes. 35c. each.

Tuberous Rooted Begonias Begonias are indispensable for shady places in the garden or lawn; also desirable for pots or piazza boxes. Start in the house in March or April and remove to the open soon as danger of frost is past. They will bloom freely from July until cut down by the frost. Dry tubers may also be planted in the open ground in May. Care should be taken to keep constantly moist.

Single White, yellow, rose, scarlet, crimson, orange. Price extra fine bulbs, 10c. each; 75c. doz.

Double White, yellow, rose, scarlet, crimson, orange. Price extra fine bulbs, 10c. each; \$1.00 doz.

GLOXINIAS Should be grown in pots in the house or on the veranda, in boxes or little frames outside, and will flower all summer. Their green leaves are surmounted with a cluster of lovely trumpet shaped flowers. The coloring is exquisite; the groundwork of many is pure white, with throats of blue, scarlet, rose or crimson; or the tubes are of bright colors with white throat. The

bulbs should be started in a warm place—greenhouse, hot bed, or sunny window. Early in the fall they should be dried off, letting the leaves die; the pots can be kept over winter in a cellar free from frost. Price, extra strong bulbs, named varieties, 10c. each; doz., \$1.00.

Hyacinthus Candicans (Summer Hyacinth). Excellent for clumps or among shrubbery. 5c. each; 35c. doz.

Madeira Vine A rapid growing vine with fragrant white flowers. 5c. each; 40c. doz.

GLADIOLUS Bulbs planted in open ground in spring produce plants with long rush-like foliage and magnificent flower spike early the following autumn. Doz. 100

America One of the finest varieties; color soft flesh pink; orchid-like in color and texture60 4 00

Pino's Special Mixture Selected to cover a wide range of types, and we have given special attention to the selection of the lighter and more desirable shades. All bulbs strictly first size.....25 1 75

LILIUM AURATUM (The Golden-Rayed Lily of Japan). The flowers are pure white, thickly studded with crimson spots, while through the centre of each petal runs a clear golden band. Flowers measure nearly a foot across. First size bulbs, 20c. each; \$2.00 per dozen.

Elegans, or Thunbergianum Early flowering, ranging in height from 14 inches to 4 feet; flowers cup-shaped, borne upright, and of a great variety of colors. Mixed bulbs, each, 15c.; doz., \$1.25.

Tigrinum Splendens (Improved Tiger Lily). Reddish salmon with dark spots. Each, 10c.; doz., \$1.00.

Tigrinum Flore Pleno (Double Tiger Lily). Each, 10c.; doz., \$1.00.

SPECIOSUM VARIETIES They are hardy, needing very little protection, and will grow and flower without special treatment.

Album This is a pure white and very fragrant variety, with beautifully recurved petals. A very fine sort. Each, 25c.; doz., \$2.50.

Rubrum White ground, with bands and spots of rose or crimson on each petal. One of the best lilies. We have a splendid stock of this very hardy and beautiful kind. Each, 20c.; doz., \$2.00.

TUBEROSES In this latitude May 1st is ample time to plant in the open ground, but the bulbs can be started in pots much earlier if desired. Select a warm soil and a sunny spot. The soil should be rich, but no especial preparation is necessary. Place the bulb so the top will be covered about one inch with soil.

Excelsior Pearl Extra fine large flowering bulbs. 5c. each; 35c. per dozen.; \$1.75 per 100. Add 10c. per doz. if sent by mail.

OXALIS These summer flowering bulbs should be planted out early in May, about two inches deep. Mixed colors, 20c. doz.

MONTBRETIAS Hardy, summer flowering, bulbous plants, with brightly colored flowers, borne in long spikes. Varieties, 50c. doz.

CANNAS 10c. each; 75c. per dozen.

Alphonse Bouvier Finest tall crimson.

Duke of Marlborough Very deep crimson.

Florence Vaughn Golden yellow, spotted crimson.

J. D. Eisle Brilliant vermillion, scarlet overlaid with orange.

President Meyer Rich cherry carmine.

Professor Romberge Brilliant fiery red.

Richard Wallace Canary yellow.

Venus Very soft rosy pink.

West Virginia Crimson scarlet with broad golden edge.

Shenandoah Best dark leaved.

Ismene Grandiflora Treated same as *Gladiolus*, will flower in 6 to 8 weeks after planting. Very beautiful lily like plant. Extra large bulbs, 20c. each; \$2.00 doz.

Beder Wood (S), Bubach No. 5 (P), Clyde (S), Gandy Prize (S), Glen Mary (S), Haverland (P), Jessie (S), Marshall (S), Nick Ohmer (S), Sample (P), Sharpless, Norwood.

Fertilizers

Sheep Manure Pulverized This is a pure natural manure, and the most nutritious food for plants. It is excellent as a top dressing for lawns. There is nothing better for mixing with the soil for greenhouse plants; one part manure and six parts soil. For use in the vegetable garden, placed directly in hills or drills, it promotes a rapid and steady growth. It makes the richest, safest and quickest liquid manure. One pound to five gallons of water; 2 lb. package, 15c.; 5 lbs., 25c.; 10 lbs., 40c.; 50 lbs., \$1.25; 100 lbs., \$2.00.

Unleached Hardwood Ashes As a fertilizer for lawns, gardens and fruits, Hardwood Ashes are unequalled; they are not a mere stimulant, but supply natural plant food, permanently enriching the soil. Clean, free from offensive odor, and can be applied by any one. They are exceedingly valuable for lawns, imparting a rich, dark shade of green and destroying many of the insects which are so injurious. Price, 100 lbs., \$1.25.

Mitchell's Special High Grade Fertilizer Contains all the necessary elements of plant food, in the most obtainable form to meet the wants of all plants in all periods of their growth. Guaranteed to contain ammonia, $4\frac{1}{2}$ per cent.; phosphoric acid, 9 to 11 per cent.; actual potash, 6 to 7 per cent. Per 100 lbs., \$2.25; 50 lbs., \$1.35.

Land Plaster Used for preventing bugs from destroying cucumber, melon and squash vines. Price, package, 25c.; per bag, 90c.

Bowker's Food for Flowers A dressing made expressly for plants grown in the house, garden or conservatory. Clean, odorless, and producing early and abundant blossoms, and healthy, luxuriant plants. Small packages, enough for thirty plants for three months, 15c. each. Large package, 25c.

Bowker's Lawn and Garden Dressing Prepared from chemicals free from weed seed, clean, to handle and easily applied. Per 100 lbs., \$3.00; 25 lbs., \$1.00; 10 lbs., 50c.; pkg., 10c.

Bon Arbor A complete plant food, immediately soluble and applied directly to the root of all plants, giving a healthy, lasting growth. $\frac{1}{2}$ lb., 25c.; 1 lb. package, 50c.

Pure Ground Bone Meal This finely pulverized ground bone is excellent for rose culture, top dressing for lawns and for potted plants; 5 lb. package, 25c.; 10 lbs., 40c.; 50 lbs., \$1.25; 100 lbs., \$2.00.

Nitrate of Soda This is valuable solely for the nitrogen it contains, equal to 20 per cent. of ammonia. Being extremely soluble, it should not be applied until the plants are above ground, when 100 to 500 pounds per acre, mixed with wood ashes or land plaster, for convenience in applying, are generally used. 5 lbs., 30c.; 10 lbs., 50c.; 100 lbs., \$3.50.

Insecticides

Aphine A liquid spray for greenhouses and outdoor use, killing lice of every species. $\frac{1}{2}$ pt., 40c.; pt., 65c.; qt., \$1.00; gal., \$2.50.

Ant Destroyer A non-poisonous powder which sprinkled around their haunts will drive black ants from lawn, etc. Pkg., 25c. and 50c.

Arsenate of Lead A poison rapidly taking the place of Paris Green. Adheres well to the foliage and will not burn the tender leaves. Lb., 25c.; 5 lbs., 90c.; 10 lbs., \$1.70.

Aphis Punk A special preparation of nicotine, for the extermination of green and black fly, thrip,

etc. Not injurious to delicate plants. Per package, 12 rolls, 60c.

Bordeaux Mixture For all fungoid diseases, such as mildew and various rots of grapes, etc. 1 gal. can, \$1.00; 1 qt., 40c.

Bug Death A non-poisonous powder that takes the place of Paris Green and other dangerous insect powders. When used as directed it is sure death to potato, squash and cucumber bugs, currant and tomato worms, etc. 1 lb., 15c.; 3 lbs., 35c.; 5 lbs., 50c.; $12\frac{1}{2}$ lbs., \$1.00.

INSECTICIDES—Continued

Lime-Sulphur Solution This preparation is scientifically prepared and is widely recommended and known as one of the best preparations for San Jose's scale, oyster shell scale, etc. Apply fall and spring while leaves are off. One application is not sufficient, as many of the scales get under the rough bark and are difficult to reach. Ready for use by adding 16 to 20 gallons water to each gallon of mixture. 1 gallon, 75c.; 5 gal., \$2.50; 50 gal. bbl., \$10.00.

Sterlingworth Weed Killer, for killing weeds in walks, drives, tennis courts, etc. 1 lb. box, 50c. each; 5 lb. box, \$2.00 each.

Fir Tree Oil One of the most reliable for red spider, green fly, mealy bug, caterpillars, slugs, blight, etc. Dilute with water and apply with ordinary syringe or bellows, or by dipping the plants. Per pt., 75c.; qt., \$1.15; gal., \$4.00.

Grape Dust A preparation to kill the destructive mildew that strikes the grape vine; also for like use upon any other plants or trees affected with mold, mildew, or rust mites, either in greenhouses or the open air. 5 lb. packet, 30c.

Hellebore Powdered White Hellebore for rose slugs, currant worms, etc. Dust on with gun or bellows while the foliage is moist. ½ lb., 15c.; 1 lb., 30c.

Kerosene Emulsion For aphids on all plants. Ready for use by simply adding water. Quart, 40c.; gallon cans, \$1.00.

Nikoteen Is the cheapest, cleanest and most effective of insecticides, and will not injure or discolor delicate plants. It is composed of that element in tobacco which gives it its value as an insecticide and nothing else. Bottle, 40c., 75c. and \$1.50.

Paris Green Superior quality. Lb., 25c.

Scalecide The latest and best spray for San Jose scale. A mechanical preparation of petroleum oil that instantly mixes with cold water. One gallon of Scalecide to 20 gallons of water sprayed on

your trees and bushes will kill every scale that it reaches without injury to tree or fruit bud if applied in late fall, winter or early spring while the foliage is off. Price, qt., 40c.; 1 gallon can, \$1.00; 10 gallon can, \$6.00; 50 gallon barrel, \$25.00.

Slug Shot Destroys all insects injurious to house and garden plants, vegetables and fruits of all kinds. Equals Paris Green when used liberally, without the danger from poison. Price, 5 lb. package, 30c.

Sulphur, Flowers of. A staple preventive for mildew on grapes, roses, etc. Lb., 10c.; 10 lbs., 50c.

Tobacco Soap Makes an excellent wash for plants and trees infested with green fly, lice and eggs of insects. Dissolve 2 oz. in gallon of water. Pkt., 20c.

Tobacco Dust If dusted on while the foliage is moist it destroys rose lice, cabbage and turnip fleas, etc. Spread upon the ground, it keeps off earth insects, and acts as a fertilizer. Per lb., 10c.; 2 lbs., 15c.; 5 lbs., 30c.; 100 lbs., \$4.50.

Tobacco Stems for Fumigating Price on application.

Whale Oil Soap Makes an excellent wash for trees and plants; kills insects and eggs on the bark. Per lb., 15c.

Poultry Supplies

CONKEY'S ROUP CURE

A guaranteed remedy for all forms of roup. Directions in each package. Price, 50c. and \$1.00.

PORCELAIN NEST EGGS Price, 3c. each; doz., 25c.

WYANDOTTE FOOD FOR YOUNG CHICKS

A safe and nourishing food for chicks just out of the shell, and one that can be depended upon to carry them right along until fully matured. This food is given dry, though plenty of pure water should always be on hand for the little fellows to drink. Wet or even moist foods are highly objectionable and altogether unnatural to all gallinaceous birds and they should never be employed except in the process of fattening for the market. 5 lbs., 25c.; 10 lbs., 40c.; 25 lbs., 75c.; 50 lbs., \$1.50; 100 lbs., \$2.50.

PRATT'S POULTRY FOOD

A cure and preventive of chicken-cholera, roup, gapes and other diseases. Molting fowls when fed Pratt's Poultry Food will lay sooner and will increase the quantity of eggs. Price, 26 oz. package, 25c.; 5 lb. package, 60c.; 12 lb. bag, \$1.25.

SHERIDAN'S CONDITION POWDER

Prevents and cures diseases of hens. It is strictly a medicine to be given in small doses once daily in their food. Price per package, 15c.; large pkg., 75c.

PRATT'S HEAD LICE OINTMENT

Used for head lice on chickens. 1 oz. pkg., 10c.

CHARCOAL (Granulated) Aids digestion and corrects many of the poultry ills; pkg., 10c.; 10 lbs., 40c.

MICA CRYSTAL GRIT

For Chickens, Geese, Turkeys, Pigeons and Birds. It makes thorough digestion of food possible. Two

grades for Chicks and Poultry. Price per package, 10c.; 100 lb. bag, 90c.

GROUND OYSTER SHELLS

Furnishes one of the best sources for Shell-making material. Thoroughly washed and dried. Price per package, 10c.; 100 lb. bag, 90c.

ROUP PILLS

For roup, swell head, and canker in fowls. Directions on each box. Price per box of 50 pills, 25c.

EGG TESTERS

Made of Tin; will fit any small lamp. Each, 35c.

POULTRY MARKERS Made in two sizes. Each, 25c.

DRINKING FOUNTAINS

Sanitary, square, galvanized, in two parts, easily cleaned and filled. Price, 1 gallon, 50c.; 2 gallon, 85c.

SANITARY EARTHENWARE

In two parts, large drinking surface. Price, 2 pts., 25c.; 3 pts., 30c.; 4 pts., 35c. each.

SANITARY FEED BOX

Made of galvanized iron, with three spaces, 50c.

LEG BANDS Aluminum. Per doz., 15c.; per 100, 75c.

INSECT POWDER BELLOWS

Each, \$1.00 and \$2.00.

INSECT POWDER GUN

Useful in dusting hens with powder. Each, 10c. and 20c.

SMITH'S INSECT POWDER A superior powder for poultry use, 25c.

PRATT'S LICE KILLER 25c. and 50c.

EGG BOXES 25 for 25c.; 75c. per 100.

SMITH'S ROUP CURE 25c.

Garden Tools and Requisites

Bellows Woodason's Powder. For Hellebore, Tobacco Dust, etc. Each, \$1.00 and \$2.00.

Bellows Sulphur. Used only for Sulphur, \$1.50.

Baskets Verbena. Adjustable Wooden handles with tin fastenings on the ends. Small size, 10 x 5, 3 inches deep, \$2.00 per 100.

Dibbles Used in transplanting cabbages, etc. Steel points, 35c. each.

Forks Digging or spading, 85c. each. Hay or stable, 35c. to 75c. each. Manure, long or short handles, 50c. to \$1.00.

Hoes Draw, with handles, 40c. and 45c. each. Hoes, Scuffle or Dutch, 40c. to 65c. each. Plympton, 60c. Warren, 60c.

Hose Rubber. Excellent quality, in 25 and 50 foot lengths; ½ in., 13c. per foot; ¾ in., 14c. per foot.

Hose Extra quality, recommended for greenhouse use; ½ inch, 17c. per foot; ¾ inch., 18c. per foot.

Fumigators Eureka. For smoking greenhouses with dampened tobacco stems. No. 2 holds one peck of stems, \$2.00. No. 3 holds ½ bushel stems, \$2.50. No. 4 holds ¾ bushel of stems, \$3.25.

Garden Lines Hemp, braided, 48 feet, 25c.

Reels For above, 50c. each.

Glazier Points. Van Reyers The only durable and reliable points. Made of steel wire and galvanized. Per box of 1000, 60c

GLAZIER POINTS

Grass Hooks (Sickles) English, each, 35c. and 40c.

Tennent Atomizer With mixer. The newest and best spraying device on the market, for greenhouse use, trees, shrubbery, vines, henhouses, etc.

The spraying tubes are so arranged that it will spray overhead, which no other hand sprayer will do. 85c. each.

Hose Couplings Set, 20c.

Hot Bed Mats Palmer's. Wool filled, frost proof. Made expressly for winter covering of hot beds, cold frames, plants, etc. Price, burlap covering, 76 in. x 76 in., \$1.35 each; waterproof duck, one side, \$2.00.

Knives Budding and pruning, \$1.00.

" Asparagus. For cutting asparagus under the surface, 45c. each.

Edging Knife Handled, 60c.

Lawn Rakes Wooden, best quality, 60c. each.

ROSE SPRAY

to adjust them. For ½ inch or ¾ inch hose, dozen, 75c.. 1 inch, 85c. doz.

Lawn Sprinklers Peck's Improved. Standard, 4 feet high, arms revolve, scattering a fine spray evenly over a space 50 feet in diameter, 4 arm sprinkler, \$3.00; 8 arm sprinkler, \$3.50.

Lawn Sprinkler Water Witch, No. 3, 75c. each; No. 4, \$1.20 each.

Tremlow's Old English Glazing Putty For bedding glass in sash or for filling cracks or seams in roof joints or frames of greenhouses or hot beds. When once set on dry wood it does not heave. Gal- lon, \$1.60.

Mastica Glazing Machine Each, \$1.25.

Pruners Water's Tree. This pruner never fails to cut the slightest twig. It is the cheapest and most practical pruner on the market. 6 ft., 75c.; 8 ft., 85c.; 10 ft., \$1.00; 12 ft., \$1.10.

Pruners Telegraph, without handles. \$1.25 each.

Pumps Perfect Success Bucket Spray. The best and most durable portable hand pump. It has large air chamber, double acting, throwing continuous stream either solid or in fine spray, \$4.35

Pump Simplex Barrel Sprayer. A large air chamber insures a constant stream; mechanical agitator keeps liquid stirred. Brass working parts. Price, pump only, with Y connection, \$7.50.

Rollers The benefit derived from the use of a roller on the lawn especially in the spring is not fully understood. The action of freezing and thawing causes the ground to heave and if the sod is not firmly pressed back with a roller before the hot weather begins the grass is apt to be killed or injured leaving the lawn full of bare spots. The rollers we offer are made of first-class material outer edges being beveled to prevent cutting sod and face of roller is turned perfectly smooth.

The Links Lawn Boot

For Use on Golf Links, Tennis Courts and Fine Lawns

Aside from the lasting qualities it is the only humane boot, for the reason that it is firmly fastened to the hoof instead of around the ankle, thus giving free action to the horse's feet and obviating all possibility of chafing. Price, set of four, \$8.00.

Townsend's Horse Lawn Mower

Triple rolls with triple pawls in each roll, making the most powerful and instantaneous driving mechanism ever put in a lawn mower.

This feature maintains the motion of the blades even in turning sharp corners, and forms a strong contrast with other double roll Mowers whose knives have no motion when turning corners. It is made very strong and powerful, of the very best materials, and finished in the most perfect manner.

It will cut over very rough and uneven ground and stand very rough usage, and still will get down into the turf and cut its swath clean, easily and smoothly. It is, on this account, very popular with golf clubs. We warrant it superior to any mower ever built, and will refund the purchase price to any customer dissatisfied after a trial.

Furnished with seat, handles and shaft complete, and made 30-inch or 38-inch width of cut. Price, \$60 to \$80.

“ Lion ” Ball Bearing Lawn Mower

The ball bearing in lawn mowers is the latest and probably the greatest improvement in their manufacture. The “Lion” is constructed with 10-inch skeleton rim driving wheels, 6 $\frac{1}{4}$ -inch cutting cylinder with five knives. Is a strong and powerful easy running mower.

For those who mow their lawns frequently we advise the use of fine blade machines, as they leave the lawn in a very smooth condition.

16-inch, \$10. 18-inch, \$11. 20-inch, \$12.

Universal

A Superior Quality Low Priced Machine

This mower is built to accommodate those who have but little grass to cut and wish a low priced machine, yet one that will do good work. While this machine should not be compared with strictly high grade mowers yet we consider it an excellent machine for moderate use. 14-inch, \$3.50; 16-inch, \$3.75.

Roller Lawn and Golf Mowers

On lawns where exceptionally fine cutting is a necessity, there are no mowers to equal these. They cut smoothly, effectually doing away with that wavy appearance so often seen on a freshly cut lawn. They will also roll down a new lawn and protect it against upheavals caused by dampness, ants and other insects. These are the only mowers that will cut borders properly and without danger of cutting the sod.

Price, 18-inch, 6 blades, \$15.

“ Iron Age ” Combined Seed Drill and Double Wheel Hoe

The Seed Drill is complete in itself, merely requiring to be bolted with two bolts to the wheel frame. As a drill it opens the furrow, drops the seed, covers and rolls it and marks the next row at one passage. It can be set to sow shallow or deep, thick or thin, as desired, and handles all garden seeds. The flow of seed can be instantly shut off to turn rows. The agitator is a revolving brush which will not injure seed in the slightest.

Combined Drill Seeder and Double Wheel Hoe, \$11. Combined Hill and Drill Seeder and Double Wheel Hoe, \$12.

The “ Iron Age ” Hill and Drill Seeder

This is the most complete tool ever offered by the manufacturers of the “Iron Age” implements. It has only been placed upon the market after a most thorough experiment and field tests. The wheel is 16 inches high, made of steel, with a 2-inch tread. The opening plow is clog proof and can be instantly adjusted. The hopper is low; therefore the delivery of the seed is close to the ground, thus making possible accurate spacing.

The distance of spacing the seed can be instantly changed by simply removing a small wheel at the side of the hopper and reversing it, or by putting on another.

The flow of seed can be instantly stopped or started by a convenient finger latch on the handle.

Price, \$11.00.

"IRON AGE" DOUBLE WHEEL HOE

For the cultivation of garden crops it is an indispensable implement. With it one person does the work of several men with great ease. One great advantage which this double wheel hoe possesses is that it can be made into a practical single wheel hoe in a moment's time. The wheels are 16 inches high, enabling the wheel hoe to run easy and without yielding to the depression of the soil, as a low wheel will do. The frame being made of tubing coupled to malleable castings gives great strength, together with lightness. Price, complete, \$7.00.

THE "GEM OF THE GARDEN" WHEEL HOE

Single Wheel Hoe

No greater proof can be given of the popularity of a tool, or of its intrinsic worth, than the one simple fact of a continued demand for it. In the past few years there have been placed about *fifteen thousand* of the "Gem" Wheel Hoes in the hands of gardeners, and we are not aware of a single instance in which it has failed to give entire satisfaction to the user. It is not a toy, neither is it a tool made of light gray castings, calling for constant repair, the "Gem" being largely made up of *steel and malleable iron*. The set of slender, stirring teeth, each stamped from one piece of steel, cannot be excelled for thorough work, especially in hard soil. Price, complete, \$5.00. With teeth only, \$3.75.

"IRON AGE" SINGLE WHEEL HOE

With Cultivator Teeth, Plow and Rakes

This tool is, in regard to the work done, almost a counterpart of the Double Wheel Hoe, and the same remarks as to its construction, extreme lightness and ease of operation will apply with equal force. For the small kitchen garden we consider the single wheel hoe as being preferable. The work is done principally between the rows, although plants of small growth can be hoed on both sides at once by placing the wheel on the left side. With this single wheel tool spaces of exceedingly narrow width can be worked even using but one cultivator tooth. With the large plow attachment deep furrows can be opened or closed, potatoes, celery and other crops hilled—in short all work usually accomplished by a special plow. Price, complete, \$6.00.

FARMOGERM

(High Bred Nitrogen-Gathering Bacteria)

"Makes Poor Soil Good Soil"

It is well known that nitrogen is the most expensive of fertilizing elements. It is also known that it is the plant food in which most soils are deficient. We are pleased, therefore, to be able to offer our patrons an improved and most reliable method of inoculating soil with nitrogen-gathering bacteria. By moistening the seed of any leguminous crop to be planted with Farmogerm, not only is the immediate crop benefited by this pure culture of high bred nitrogen-gathering bacteria, but the soil is enriched in nitrogen which will be available for future crops of any kind for two or three seasons. One of the important advantages which Farmogerm has over other and earlier preparations of this kind is the fact that it needs no treatment or development before using. It comes in sealed bottles ready for use with a little water according to directions.

Soil inoculation is a big subject and the possibilities of it are only partly appreciated by many. We have no space for details here but we hope our customers will write us for a free pamphlet on the subject which we will be pleased to send. Investigate before planting any of the following crops:—

Alfalfa, Alsike, Berseem, Crimson Clover, Red Clover, White Clover, Canadian Field Peas, Cow Peas, Soy Beans, Velvet Beans, Vetch, Lupins, Peanuts, Garden Beans, Garden Peas, Sweet Peas and other legumens.

When ordering be sure and state for what crop Farmogerm is wanted. We are prepared to supply Farmogerm for any one or all of these crops at the laboratory price of \$2.00 per acre, 10% discount on 25 acres, 15% discount on 50 acres, 20% discount on 100 acre orders.

Garden size, mixed culture, good for Peas, Beans, and Sweet Peas at 50 cents a bottle. Also White Clover for lawns.

The U. S. Department of Agriculture says: "The pure culture method has come to stay."
